### Open

If you're open to speak what's true  
I'm willing to stand beside you  
My door is always open  
Just tell me when you'll come through  
I remain, I remain open  
The road ahead is so unclear  
Sometimes I'm gripped with such fear  
Would you be open  
To coming home with me  
Would you be open to letting your soul fly free  
I remain, I remain open, open  
Would you open up your heart  
And not close your mind  
Would you be open  
To a new start  
Would you be open to new roads to find  
I remain, I remain, open, open  
If you're open to speak what's true  
I'm willing to stand beside you  
My door is always open  
Just tell me when you'll come through  
I remain, I remain open  
I remain open

### Circle of Time

How will it reveal itself  
In a library on a dusty shelf  
Will it be benign  
This circle of time, time  
Look at tomorrow  
Will it banish all this sorrow  
From nothing we get a

Very substantial something, time  
The past is now  
I have no idea how  
Now is then, will it come back again  
The future stretched behind you  
What's old is new  
The past thrust far ahead  
What's to be is unread  
Time's arrow is bent  
All my love has been sent  
There's so much to be found  
Will it come back around  
Circle of time, time

### You Were Just Here

We could build the brightest constellation  
With all the memories you left behind  
We could have the biggest celebration  
If only we could rewind  
You, you, you were just here  
You are everything I hold dear  
You, you, you were just here  
You're at my doorstep  
And in my heart  
You're always in my thoughts and in my art  
You, you, you were just here  
You make everything so clear  
You, you, you were just here  
Searching for a trace element  
Looking for for you everywhere  
Wondering where all the time went  
Hoping you know how much I care  
You, you, you were just here  
You, you, you were just here

### Up into the Clouds

Reality is behind it  
A common prayer

It always makes me better  
A song that lifts us up  
Up into the clouds  
Hard work is behind it  
A common song  
With all the details to the letter  
A dream that lifts us up  
Into the clouds  
Up into the clouds  
Up into the clouds  
Dedication is behind it  
A common dream  
It always makes me better  
Up into the clouds  
A vision that lifts us up  
Into the clouds  
Up into the clouds  
Persistence is behind it  
A common vision  
With all the details to the letter  
A kind of magic  
Lifts us up into the clouds  
Up into the clouds

### Pages of May

Leafing the memories  
Writing it all down  
In your pages of May  
Pages of May  
Reconnecting to your sunshine  
Pages of May  
Every year another chapter  
In your pages of May  
In your pages of May  
On a brighter day  
Much needed focus  
Nothing left out  
Your words included

In your pages of May  
Pages of May, ándale  
Passionate phrases  
Progressive changes  
Words for all time  
In your pages of May  
Pages of May  
What will you say?

### Song by Song

Making sure you're safe and sound  
My heart soars  
But my feet are on the ground  
Getting better, getting better  
Note by note, song by song  
It won't be long  
I've got the red, white and blues  
Time to light up all  
The colors we choose  
Stand up for the truth  
You can't go wrong

### Kindness

How can I stop all this duress  
With just one word - kindness  
How can I ensure all of our success  
With just one word - kindness  
How can I make sure  
You don't have less  
With just one word - kindness  
How can I help the world  
when it's such a mess  
With just one word - kindness  
What can I say for your forgiveness  
Just one word - kindness  
The world has so much to say  
I don't want to hear it unless  
It's just one word - kindness

### I Wish I May

I wish I may, I wish I might  
Get you to vote tonight  
Vote for democracy  
Not a theocracy  
Vote for the climate, not for hate  
Vote for all to succeed  
Not for greed  
Vote for autonomy  
Not for conspiracy  
Vote for science  
Not for grievance  
Vote for cooperation  
Not for isolation  
I wish I may, I wish I might

### Cavalcade

It started with one  
A better path ahead  
This journey has begun  
What need to to said has been said  
What needed to be read  
Has been read  
I'm part of the cavalcade  
All the progress we've made  
It's the time of the cavalcade  
I'm ready to be part of the parade  
On our way, on our way, on our way  
It's in full swing, on our way  
Now it's a movement  
All our voices sing, on our way  
To the cavalcade  
All the progress we've made  
It's the time of the cavalcade  
On our way  
I'm part of the cavalcade  
I'm ready to be part of the parade

We won't go back  
On the shoulders of giants we go  
All the freedom we can bestow  
In the cavalcade  
All the progress we've made  
It's the time of the cavalcade  
On our way  
Won't you be part of our parade

### The Blue Door

Don't despair  
I know how much you care  
There's something you can do  
Vote for what's true  
Walk past the red door  
Open up the blue  
Tried and true  
Open up the blue  
The blue door  
See through the disinformation  
Save our nation  
Just down the corridor  
It's the blue door  
Turn left and you'll find so much more  
The blue door

As a self taught musician it has always been a dream to learn them all! This album  
fulfills part of that dream to play everything on it and record it as well. Thanks  
to a Kurzweil keyboard I received from Steve Walsh and a Schecter guitar I  
received from Johnny Echols I was off to the races. I played my Fender P bass,  
violin, mandolin, harp, horns, drums and anything else I could find to make noise.  
I hope you enjoy this trip through the Blue Door, and here's wishing you creative  
freedom always!  
Love, Laurie
